Don't forget the Indian school entertainment on December 11th.

The ladies of Yuma are proved to be superior to vulgar superstition, for, on Friday, the 13th of the month, (the supposedly fatal combination,) they held their club meeting, and not one of them show any signs of losing beauty sleep over the matter.

Sweet and wholesome bread—you can't help liking it—at Shorey's.

Ladies' undressed kid gloves, all the best kinds at the best prices, at Rimpau's.

Have you seen the Board of Trade pamphlet on the agricultural advantages of Yuma county? Have you sent a copy to that friend of yours back east who wants to know what kind of a country this is? He ought to have one. You can get them at Marvin, the president, or of Ingraham, the secretary.

Rimpau doesn't keep gloves; he sells them. They are so nice and the prices are so attractive that he can't keep them, so he just lets them go.

At the Masonic grand lodge meeting at Tucson last week Herbert Brown was elected to the office of junior warden of that body. Mr. Brown was already a grand lodge official and this new position is in the nature of a promotion.

Millennium in 1912.

The statement is made by a prominent divine in the west that the millennium will arrive in the year 1912, and bases his claim on the prophecies of the Bible. Whether his prophecy is correct or not time alone will tell, but in the meantime we should make the most out of our lives, and the first essential to this is good health. A sickly person cannot enjoy life because he lacks the vigor and vitality necessary for such enjoyment and consequently always feels down-hearted and depressed. It was for such persons that Hostetter's Stomach Bitters was first introduced fifty years ago, and many persons today can ascribe their good health to its use. It positively cures indigestion, dyspepsia, constipation, biliousness and liver and kidney troubles. Don't fail to try it.

Yuma County.

Where the sun shines every day in the year.

Finest winter climate on earth.

No fogs.

Figs, dates, lemons, oranges, almonds, olives, cotton, cane, and all northern fruits, grains, etc., flourish.

The commercial center for rich mines of gold, silver, copper and lead, and quarries of lime.

Haying in December.

Yuma fruits three weeks ahead of all competitors.

Situated in the fertile valley of the Colorado—the Nile of America.

The board of trade has arranged the above terse sentences in a form to be printed on envelopes and business men and others interested are asked to use it for the purpose of advertising the town and valley. It is good advertising, and inexpensive. The board of trade pays for the printing.

PARDONED CONVICTS.

Jump Quickly Into Trouble. Owings Brothers' Plot to Steal Horses Frustrated. Both Badly Done Up.

A press dispatch from Wilcox to the Los Angeles Herald of the 15th says: Lewis and George Owings, who were released from the Arizona penitentiary at Yuma three weeks ago, after completing a term of five years for the part they played in the celebrated Southern Pacific train robberies at Cochise and Fairbanks, are again in trouble.

A sixshooter proved too great a temptation in the hands of the old gunmen after five years' restraint, and they made free use of their guns in their first fight since leaving the prison, which occurred Thursday at the Sulphur Springs ranch.

The Owings boys, after leaving Yuma, went straight to the ranch of David Johnson at Sulphur Springs, near Wilcox. Johnson, who had befriended the two men in the past, employed them as cowboys on the ranch and everything went well until Thursday, when he unearthed a plot which had been fixed up by the brothers to make way with a bunch of Johnson's best horses and ride with them across the Mexican line.

The trouble occurred when Johnson and several of the other men upon the place confronted the two Owings with evidence of the plot they had discovered. A few hot words were exchanged, when both the Owings drew their guns and began shooting. Johnson and his men took refuge behind several outbuildings, and Johnson himself, who was the only one of the party armed, replied to the fire, while the others fled to shelter.

Lewis Owings was hit and dropped out of the fight while George Owings and Johnson, both of whom had used up all of their ammunition, engaged in a hand-to-hand conflict. Although Johnson succeeded in dealing Owings a terrible blow on the head with a branding iron, the latter overpowered and tied up his opponent. He assisted his brother to a horse and, mounting his own animal, the two men rode into Wilcox, arriving there in an exhausted condition.

George Owings was so weakened from the loss of blood from the gash cut in his head and is in such a terrible condition that he may not recover. The brothers have not been placed under arrest, owing to their condition.

Wanted.

We would like to ask, through the columns of your paper, if there is any person who has used Green's August Flower for the cure of indigestion, dyspepsia, and liver troubles that has not been cured!—and we also mean their results, such as sour stomach, fermentation of food, habitual constiveness, nervous dyspepsia, headaches, despondent feelings, sleeplessness—in fact, any trouble connected with the stomach or liver? This medicine has been sold for many years in all civilized countries, and we wish to correspond with you and send you one of our books free of cost. If you have never tried August Flower, try a 25 cent bottle first. We have never known of its failing. If so, something more serious is the matter with you. The 25 cent size has just been introduced this year. Regular size 75 cents. At DeVane & Robinson.

A Fighting Pig.

Walter Winsor attempted to drive a 350-pound male pig into a pen the other day, and for hours afterward was uncertain as to just what had happened to him. He was only armed with a slender willow stick, and when the boar refused to go into his apartment after being asked to do so in the kindest possible manner, Walter made a bluff as if to strike the animal. The bluff was immediately called. Mr. Boar made a lunge and ripped Walter up the leg with his sharp tusks and Walter quickly decided that he would be safer on the other side of the fence. As he was climbing over the boar hit him a Jim Jeffries "dirt" in the side, the force of the blow helping him materially to clear the fence, and he landed safely, with only one side caved in, two ribs broken, and so thoroughly mused up that he allowed the pig to stay outside the pen for two or three weeks, until the fractured "ribs" were properly mended. As soon as Walter felt strong enough he will, with the aid of a shot-gun, persuade the "brute" to go where he wants him to.

Disastrous Wrecks.

Carelessness is responsible for many a railroad wreck and the same causes are making human wrecks of sufferers from Throat and Lung troubles. But since the advent of Dr. King's New Discovery for Consumption, Coughs and Colds, even the worst cases can be cured, and hopeless resignation is no longer necessary. Mrs. Lois Cragg of Dorchester, Mass., is one of many whose life was saved by Dr. King's New Discovery. This remedy is guaranteed for all Throat and Lung diseases by all druggists. Price 50c. and \$1.00. Trial bottles free.

This train will carry the same equipment as last year to Los Angeles, and an additional car for Pasadena and one for San Francisco.

Castle Dome Prospects.

Superintendent James P. Moffett, (erstwhile "Judge," and Nestor of the Palomas bar,) of the Castle Dome Exploration company's mines, recently reported opening up a large and rich body of ore in the new shaft. He stated that the copper values were full 40 per cent, silver: nine ounces, and gold from \$10 to \$12 per ton.

A Runaway Bicycle.

Terminated with an ugly cut on the leg of J. B. Orner, Franklin Grove, Ill. It developed a stubborn ulcer unyielding to doctors and remedies for four years. Then Bucklen's Arnica Salve cured. It's just as good for Burns, Scalds, Skin Eruptions and Piles. 25c. at all druggists.

Dancing in the new pavilion in the evening.

Doesn't Respect Old Age.

It's shameful when youth fails to show proper respect for old age, but just the contrary in the case of Dr. King's New Life Pills. They cut off maladies no matter how severe and irrespective of old age. Dyspepsia, Jaundice, Fever, Constipation all yield to this perfect Pill. 25c. at all druggists.

The entire receipts since the Cowan bill became effective amount to \$20,006.75, which averages a little less than \$3,000 monthly. This all goes into the territorial treasury and is an appreciable income.

The Bed Rock Seekers.

Although it is the present policy of the geological survey corps to give no information concerning their progress in their work to the press, it has been learned from a recent visitor to their camp, that, so far as concerned an unbroken line of bed rock from side wall to side wall they had been successful at the second station above Cocopah Point. The deepest point across the channel was at 86 feet.

The camp has, for the third time, been moved about two miles further upstream, at which point a third exploration line will be run.

Arizona World's Fair Notes.

The Arizona World's Fair commission met at Phoenix last week. Only routine business was transacted. "The commission will have one of the greatest horticultural displays in St. Louis next year ever seen from any of the western states," said President Doran.

"We are going to surprise a large number of those easterners, too. There are several tons of the largest and finest apples to be found anywhere, in cold storage, and will be exhibited the first thing. The agricultural and mineral exhibit will be an eye opener."—Globe Silver Belt.

All Stuffed Up

That's the condition of many sufferers from catarrh, especially in the morning. Great difficulty is experienced in clearing the head and throat.

No wonder catarrh causes headache, impairs the taste, smell and hearing, pollutes the breath, deranges the stomach and affects the appetite.

To cure catarrh, treatment must be constitutional—alternative and tonic. "I was afflicted with catarrh. I took medicines of different kinds, giving each a fair trial, but gradually grew worse until I could hardly hear, taste or smell. I then concluded to try Hood's Sarsaparilla, and after taking five bottles I was cured and have not had any return of the disease since." EUGENE FORBES, Lebanon, Kan.

Hood's Sarsaparilla

Cures catarrh—it soothes and strengthens the mucous membrane and builds up the whole system.

A Church Wedding.

One of the prettiest church weddings witnessed in Yuma for a long time was that of Alfred M. Foster and Miss Irene Cargill at the M. E. Church last Sunday evening. About 150 persons were present, filling the building to its full capacity.

The decorations were very pretty, and tastefully arranged, consisting of a profusion of pepper boughs, banks of roses, chrysanthemums and carnations.

The ceremony was performed by Rev. J. A. Crouch promptly at 8:30 o'clock. At that hour the bride, attired in white silk and nun's veiling, carrying white carnations, was escorted to the altar by Mr. James M. Polhamus, preceded by the bridesmaid, her sister, Miss May Cargill; at the altar the bride and groom met, the latter being attended by Mr. Mulford Winsor, of the Phoenix Enterprise.

Mr. Foster is one of the most estimable young men of Yuma. For several years he has been connected with the Yuma Sun, and is also editor of the Arizona Pythian Record, the official publication of the Knights of Pythias of Arizona. He is the present secretary of the Democratic County Central committee, and has been quite prominent in Yuma county politics. The bride is the accomplished daughter of Mr. A. H. Cargill, one of the proprietors of the Southern Pacific Hotel, and is a very popular among Yuma society people.

The happy pair were the recipients of numerous handsome presents, as well as congratulations and good wishes, which were lavishly showered upon them.

Mr. and Mrs. Foster left on the east-bound passenger the same evening, followed by a deluge of rice and other expressions of esteem and good will from scores of their friends who gathered at the depot to see them off. After a honeymoon of two weeks duration Mr. and Mrs. Foster will return to Yuma and make their permanent home here.

Womans' Club Proceedings.

The Yuma Womans' Club held its weekly meeting Friday, November 13, at the home of Mrs. W. H. Dresser. After the regular business meeting the topic of the day's lesson, "Yuma," was discussed.

The "History of Yuma" was the subject of a talk by Miss Post. The description of the town, its conditions and the changes observed by her, together with some of her personal experiences, was presented in a most interesting manner.

Miss Greenleaf followed with a well written article on the Mines and Minerals of Yuma County.

An able talk on the History of Irrigation in the Yuma Valley was given by Mrs. W. F. Timmons.

A paper on the History of the Press in Yuma was charmingly delivered by Mrs. W. D. Smith. Through the kindness of Mr. J. W. Dorrington, Mrs. Smith brought copies of the early editions of the Arizona Free Press—the first paper printed in Yuma, and of the Sentinel. These were passed around and served as interesting sidelights on the history of pioneer days in Yuma. The meeting was most enjoyable.

The club at present numbers twenty-five members. The officers are: President, Mrs. Dr. Pugh; Vice Pres., Mrs. J. S. Spear; Secretary, Jennie Kent; Corresponding Secretary, Mrs. Marie Bailey; Treasurer, Edna Greenleaf; Critic, Mary E. Post; Programme Committee, Mrs. Pugh, Mrs. Hackett, Mrs. Bailey and Margaret Harrington.

Mrs. Pugh, Mrs. Dresser and Mrs. Bailey were elected delegates to represent the club at the meeting of the Territorial Federated Womans' Club, which convenes in Tucson this week.

The next regular meeting will be held Nov. 20, and the study of English History and Literature will be begun.

The Yuma Bakery's Milk Bread is conceded to be very fine. Try a loaf. Remember the place, postoffice corner, opposite Sanguinetti's. Some storekeepers may palm off Chinese bread on you, but insist on having Milk Bread baked by the Yuma Bakery.

AN AMERICAN PAPER FOR THE AMERICAN PEOPLE

Stop-Over Rates For Stock.

The farms of the Colorado valley have been stocked with about 2,000 head of feeders mostly furnished by a firm by the name of Patterson & Co. The company is Hon. Burt Dunlap, himself a rancher of that valley. The last shipment of several hundred head was brought in last week from Deming, N. M. This is all the cattle the valley can accommodate at this time, and these cattle will be fattened and disposed of before others are shipped in. We are unable to determine whether or not the railroad company granted a feed in transit rate to cattle California bound, as asked for some time ago, as nothing has been mentioned on the subject by the local papers at Yuma, but judging from the feeding development it is more than likely that such rate has been granted, which is as it ought to be.—Stockman.

We think that the rate has been granted, as the shippers feel justified in unloading and feeding now to the extent of several thousand head of stock per month.

Indian "Kodakers."

The Wallapai Indians are probably the first of the untutored tribes of the west to take up the kodak. In and around Kingman many of the men and squaws now carry cameras and have a jolly time getting views of Indian camp life and the beautiful and rugged outlines to be found in the lava beds. Jesse Tarr, the young Kingman photographer, has been teaching the Indians the use of the camera, and many of the pupils now finish their own pictures in good shape. It will be but a short time until the Indians peddle photographic novelties to the tourist.—Kingman County Miner.
